Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1.-4.   Cancelled

5.   (Currently Amended) A continuous method of making bath tissue and paper towels on the same papermaking machine comprising:

(a)   forming a first tissue web having a first basis weight;

(b)   transferring the first tissue web to a throughdrying fabric having continuous machine-direction ridges separated by valleys, wherein the height of the ridges is from about 0.5 to about 3.5 millimeters [or greater], the width of the ridges is about 0.3 centimeter or greater and the frequency of the ridges in the cross-machine direction is from about 0.2 to about 3 per centimeter;

(c)   throughdrying the first tissue web while supported by the throughdrying fabric;

(d)   winding the tissue first tissue web into a first parent roll;

(e)   converting the first parent roll into paper toweling;

(f)   forming a second tissue web having a second basis weight which is less than the first basis weight;

(g)   transferring the second tissue web to the same throughdrying fabric of step (b);

(h)   throughdrying the second tissue web while supported by the throughdrying fabric;

(i)   winding the dried second tissue web into a second parent roll; and

(j)   converting the second parent roll into bath tissue.
